PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Jeraldine Anderson respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 260C3 at Spur, Texas.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 260C3 to Spur, Texas as that community's first competing FM service. Spur, Texas is an incorporated community with a population of 1,088 people.¹ Spur has its own mayor, its own independent school district, its own post office, fire

department, city offices and a number of local churches. Spur is a community that is certainly deserving of a first competing FM service. The proposed channel 260C3 will provide additional diversity and an outlet for local self-expression to Spur residents and therefore is in the public interest.

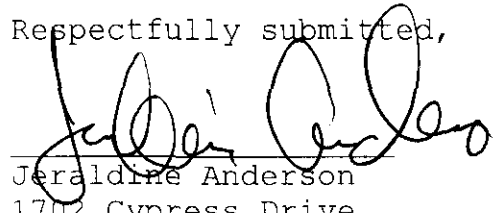

Attached hereto is a channel study confirming that Channel 260C3 can be allocated to Spur, Texas, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). Reference coordinates for Channel 260C3 at Spur, Texas are:

33 28 30 N
101 00 00 W

Should this petition be granted and Channel 260C3 is allotted to Spur, Texas, Petitioner will apply for Channel 260C3 at Spur, Texas and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

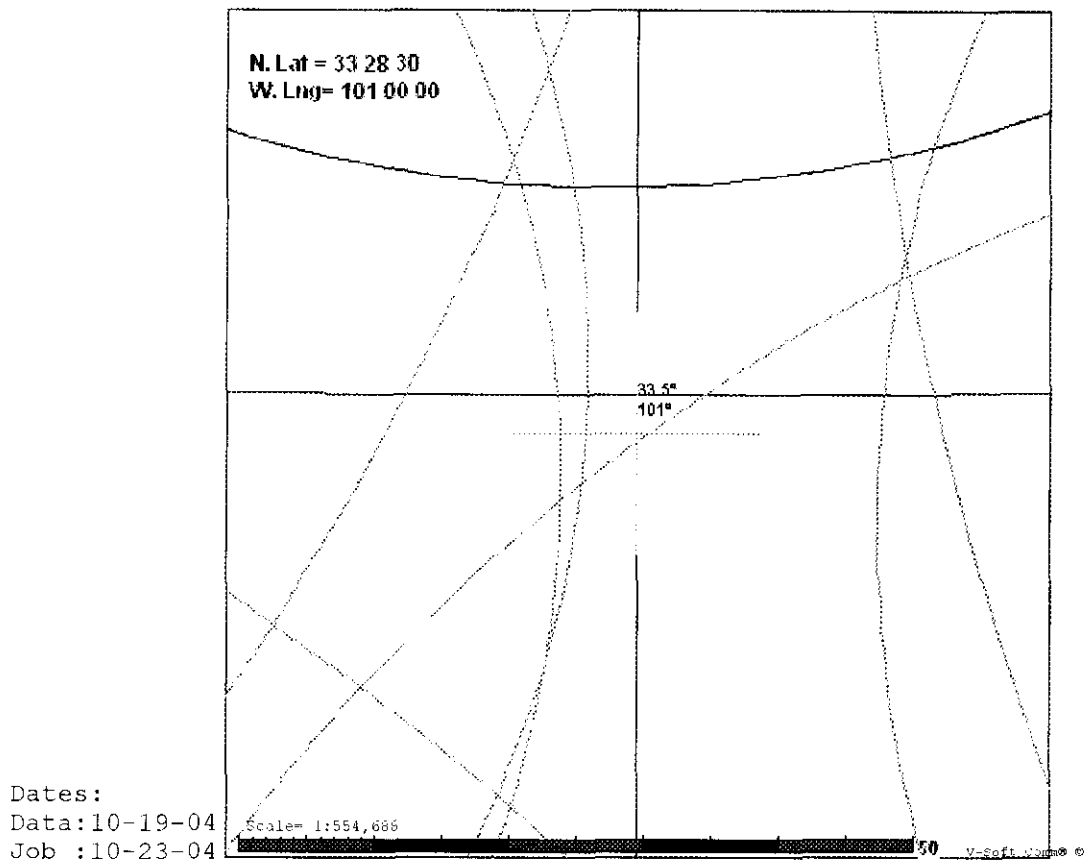

Jeraldine Anderson
